Background

I am a self-taught web developer. Since 2020 I have been working part-time in a freelance capacity building and maintaining websites, whilst supporting my family working in my current full-time job. I am ready to take the next step towards a full-time career in web development. I am a good communicator, I get along well with people and I have a professional attitude. I am reliable, focussed and eager to develop new skills to progress my career in line with my ambitions.

Experience4
